

PRESTIGE

SQUARE GUARD

uPVC RAINWATER GUTTER

www.psg.org.in

OUR INNOVATIVE JOURNEY

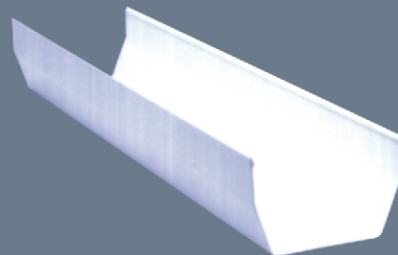

Established in 1996, our journey began with the manufacturing of ISI certified PVC pipes, half round rain gutters and accessories with its art of manufacturing facilities in Ernakulam, Kerala.

Foreseeing the water shortage and the lack of natural water resources, we at Prestige brought forth an innovative idea of harvesting rain water from every roof. After great efforts and trials, we developed a dynamic design, complying to the beauty and structure of the house. Finally we reached the goal of "PRESTIGE SQUARE GUARD" which is being manufactured under international standards of ISO 9001-2015.

DESIGN

In a world where consumers are inundated with choices, a product with compelling narrative stands out. A well drafted story establishes credibility, authenticity and trust. It is what we try to communicate with our authentic design of rain gutters.

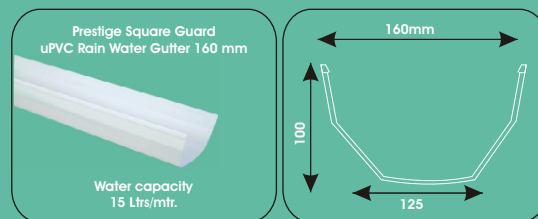

QUALITY AND PERFORMANCE

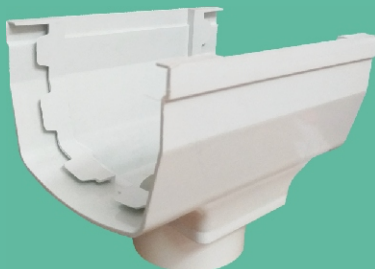

Made from reliable and best quality pure virgin uPVC materials for long lasting and better usage experiences.

Prestige square guard is designed in such a way to resist the impact of climate changes and chemical reaction.
